WHAT PERSONAL INFORMATION ABOUT CUSTOMERS DOES TUONOME.IT GATHER?

Information you give us: We receive and store any information you enter on our Web site or give us in any other way. We use the information that you provide for such purposes as responding to your requests, providing our services (e.g., domain name registration, DNS hosting), and communicating with you.

DOES TUONOME.IT SHARE THE INFORMATION IT RECEIVES?

Yes, we do share information but only as described below. Otherwise we will not provide your personal information without your consent.

1. WHOIS: We are required by the Internet Corporation for Assigned Names and Numbers ("ICANN"), the organisation that assumes responsibility for domain name allocation, to collect information about you during the domain name registration process. This information includes your full name, mailing address, phone number, email address, and, where provided, your facsimile number. ICANN then requires all registrars to make your full name, mailing address, phone number, email address, and, where provided, your facsimile number, as well as the creation and expiration dates of your domain name registration and the name server information associated with your domain name, to the public via an interactive Web page and a "port 43" WHOIS service. For the purposes of this Privacy Notice we will refer to this information as your "WHOIS Information." Please note that we may not be able to control how members of the public may use the WHOIS Information.
2. Partners: We may partner with other parties to provide specific services. When the user signs up for these services, we will share names, or other contact information that is necessary for the third party to provide these services.
3. Agents: We may engage other companies and individuals to perform functions on our behalf. Examples include processing credit card payments, providing marketing assistance, providing customer services, sending postal mail and email to you, removing repetitive information from customer lists, and analysing data. These persons have access to personal information needed to perform their functions. These companies do not retain, share, store or use personally identifiable information that you provide to Tuonome.it for any secondary purposes.
4. Business Transfer: As we continue to develop our business, we might sell or buy businesses or their assets. In such transactions, customer information generally is one of the transferred business assets. Also, if Tuonome.it. or all or substantially all of its assets were ever to be acquired, customer information will of course be one of the transferred assets.
5. Compliance: We release account and other personal information when we believe release is appropriate to comply with law; enforce or apply our Services Agreement and other agreements; or protect the rights, property, or safety of Tuonome.it, our users, or others. This includes exchanging information with other companies and organisations for fraud protection and credit risk reduction.

HOW SECURE IS INFORMATION ABOUT ME?

1. We work to protect the security of your information during transmission by using Secure Sockets Layer (SSL) software, which encrypts information you input and the information we may send to our agents.
2. Tuonome.it has gone to great lengths to ensure your information is securely obtained and stored.
3. It is important for you to protect against unauthorised access to your password and to your computer. Be sure to sign off when finished using a shared computer.
